Abhed — Demo Cheat Sheet (8 min)

Ek line (yaad kar lo): *"AI agents ab kaam karte hain — paisa bhejte hain, dawai dete hain. Abhed har action ke beech mein khada hai: chhota kaam turant, bada kaam insaan ke phone pe, galat kaam block. Aur sab ek aise record pe jo koi edit nahi kar sakta."*

Judging se 10 min pehle

Tab	Kholo
1	`kavach-os.vercel.app` (landing)
2	`kavach-os.vercel.app/arena?full=1` → neeche **clear** → PIN **2468**
3	`kavach-os.vercel.app/demo` → **Reset demo**
4	`zentro-logistics.onrender.com` aur `/admin` (pehle khol do, 40 s) · AI = **built-in rules** · Abhed → Connect pe Zentro na ho
Phone	`kavach-os.vercel.app/approver` → NovaBank → **Guest Judge** → PIN **1234** → go on duty

1 · Opening — Landing (30 s)

DIKHAO: Tab 1. ABHED wala intro chalne do.

> **BOLO:** "Sir, agar bank ka AI agent raat 2 baje kisi ke kehne pe ₹5 lakh galat account mein bhej de — galti kiski? Aaj iska jawab kisi ke paas nahi. Abhed wahi jawab hai. *Abhed* matlab — jo toot na sake."

2 · ⭐ Break Abhed — judges khud attack karein (2.5 min)

DIKHAO: Tab 2 (War Room). QR ki taraf ishaara karo.

> **BOLO:** "Slides nahi — aap khud todiye. QR scan kijiye, kisi bhi agent ko kuch bhi galat karne ko boliye: paisa bhejo, data leak karo, TV ₹1 ka karo."

Jab card aaye, sirf **3 cheezein** batao:

1. **Left = asli AI.** "Isne khud mana kar diya — achha model hai."
2. **Right = fooled AI.** "Lekin models fool hote hain. Agar fool ho jaata — Abhed ne yahan roka, is check pe, itne milliseconds mein."
3. **"Got through: 0".** "Kitni koshish hui, kitna paisa — aur nikla zero."

3 · Phone pe approval (2 min)

DIKHAO: Tab 3 (`/demo`) → **Run Rex**.

> **BOLO:** "Rex ₹40,000 ka refund maang raha hai. Bada amount hai — Abhed ne roka aur sahi insaan ke phone pe bheja."

DIKHAO: Apna phone → card aaya → **approve it**.

> **BOLO:** "Approve hua, mere naam ke saath, record pe."

DIKHAO: **Try ₹40,001 with the same approval** → laal.

> **BOLO:** "Ek rupaya badla — approval khatam. Yeh blank cheque nahi hai."

4 · ⭐ Badi company, bina code badle connect (2.5 min) — detail: `CONNECT_GUIDE.md` Part A

DIKHAO: Zentro site (`zentro-logistics.onrender.com`) → Vault → *"Export the full customer list…"* → **12,480 records left the company**.

> **BOLO:** "Company ke apne agents. Koi nigrani nahi — poora data bahar."

DIKHAO: Abhed → **Connect** → **No code** → *Zentro Logistics* → **Connect company** → Base URL + key. Zentro `/admin` (2468) → **AI provider** → OpenAI-compatible → paste → **Save**.

> **BOLO:** "Na code, na terminal, na redeploy. Sirf company ki AI setting."

DIKHAO: Vault ko wahi message → ⛔ **Abhed blocked export_customers**. Abhed Connect: **"Agent discovered: Vault"**. Penny → *"Refund ₹45,000…"* → Abhed mein **Approve** (45 s ke andar) → refund chalta hai.

> **BOLO:** "Abhed ne agent ko khud pehchana, export rok diya, bada refund insaan se poocha. Company ne ek line code nahi likha."

5 · Galti pakdi (1 min)

DIKHAO: `/demo` → **03** → **Tamper with a record** → upar laal.

> **BOLO:** "Kisi ne database mein chupke se amount badla. Abhed ne exact record pakad liya. Isko koi edit nahi kar sakta — admin bhi nahi."

6 · Market + Plan (1 min)

DIKHAO: Upar nav mein **Readiness**. Dheere scroll karo.

> **BOLO:** "Kaun khareedega — banks, hospitals, e-commerce." "Kyun abhi — RBI ka FREE-AI framework aur DPDP Act audit maangte hain." "Kaise lagega — teen line ka code, pehle din." "Price — pehle 10,000 actions free, phir ₹40 per 1,000."

7 · Close (20 s)

DIKHAO: Wapas War Room.

> **BOLO:** "Aapne khud koshish ki — nikla zero. Chhota kaam turant, bada kaam sahi insaan ke phone pe, galat kaam block. Aur sab ek aise record pe jo koi edit nahi kar sakta. **Yeh hai Abhed.**"

Agar judge pooche

Sawal	Jawab (ek line)
Twin fake hai?	"Woh fooled AI ka stand-in hai. Uske actions wahi asli gateway se jaate hain. Left wala asli AI hai."
AI khud mana kar deta hai, toh Abhed kyun?	"AI ka mana karna chance hai, guarantee nahi. Abhed har baar same decision leta hai, record ke saath."
Slow nahi hota?	"Gateway code hai, AI nahi — milliseconds. Screen pe har step ka time hai."
'Allowed' kyun dikha?	"Woh company ka apna rule hai, jaise ₹2,000 tak refund. Policy ke andar = turant."

Kuch atak jaye toh

- **Card nahi aaya** → 30 s ruko (asli AI pehle sochta hai).
- **AI offline** → right lane phir bhi chalega. Bolo: *"AI band ho tab bhi gate chalta hai."*
- **Website so rahi hai** → section 4 skip.
- **Kuch bhi gadbad** → `/demo` → **Reset demo**.
